

New Ideas in Roofing - *Introducing the*

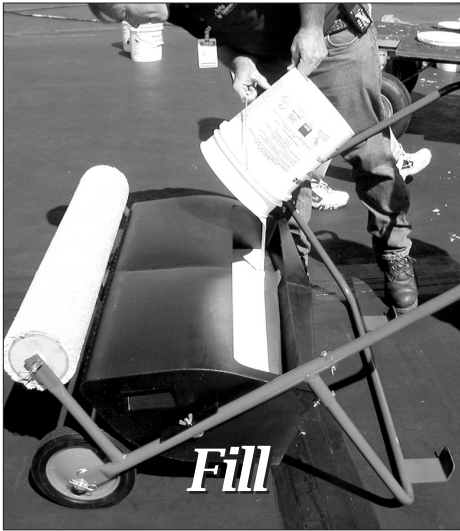

# SuperSpreader

Rooftop  
Equipment Inc.

***IT'S FAST***

Accurately applies more than  
300 sq. ft. per minute!

An applicator for pourable roofing materials  
***(Bonding Adhesive, Cold Process, Coatings)***  
in Three Simple Steps:

Step 1:  
Fill the *SuperSpreader*  
tank with liquid

Step 2:  
Tip & pull the *SuperSpreader*  
for easy application

Step 3:  
Tilt to drain unused liquid  
into storage can

***If you can pour it, you can roll it – FAST!***

Rooftop Equipment introduces the new *SuperSpreader*, a gravity fed, easy-to-use, low maintenance applicator for any pourable material.

Forty-inch disposable rollers make accurate coverage simple and *FAST*.

- No waste – preserves unused adhesive
- Easily holds two buckets of material
- Different-size holes accommodate a variety of liquids (*Bonding Adhesive, Cold Process, Coatings*)
- Durable polyethylene tank allows easy clean up
